### Jungle and Goonshow's Epic in North Epping

#### The Run

Heavy traffic on Epping Rd meant many of the pack struggled to make the 6:30 start. With a soft-walkers option, a real walkers and a runners' trail there was an option for all including late starters. **Irish** returning from NZ, started at the back but was soon in the thick of things.

**Scotsman** and the **Petite Poop** stayed near the front with **Menstrual** leading the walkers. The trail headed into the valley, with **Cinderella** and **Tic Toc** in merry song. **Wrappa, Tyre Fruck** and **Smiley** headed up the Soft walkers having started late, catching **Frenchie** as they went.

Joining the Great North Walk **Centrepoint** forged on. The runners heading east took a steep short section through the bush, not enough to deter **Moishe** or **Superglue**. Joining the walkers near the model aircraft field confusion reigned confounded. After a detour past the Archery range the runners should have taken a trail up to Pennant hills park, returning along the firetrail past Duckys and up to Boundary Rd. **Bennie** arrived home looking exhausted, but at least it was light. Well after dark a lost and disheveled **Music Man** appeared. Your scribe was preparing dinner at this stage and is unsure of what transpired.

The rain held off and as the BBQ with salads was served all agreed the run was tough but good. **Calici** was back and after ensuring all were fed and had enjoyed their special desert ("dick print and spoof included") led the down downs. The hares **Jungle** and **Goonshow** – well done, **Cinders and Tickers** for that song, **Scud** for being very past and finally welcome to Ian Charles (possibly **Cockup Camila**) a new member.
