### Saddle Sore and assistants celebrate 5 hard years

#### The Run

The POSH decided to join the NSWHHH in the celebration of their 5<sup>th</sup> year of hashing from Muston Park in Chatswood. In spite of some grumbling from a few unhappy POSHites, about 50 Posh stalwarts arrived.

The run started in the park, charged across the creek (on the bridge) and then had **Plunger** and the **Flying Scot** leading the way past the back of some houses.

**Saltpetre** led into the industrial estate up some stairs and over Ashley St **Bennie** was not far behind through the car park onto Eastern Valley Way and across at the lights. A mighty check caught many of the runners (including **Superglue** who ended up at Manly Dam:) before they darted into the bush at sewer Scotts creek. The tennis courts made **Goanna** shiver, but with **Spud** still at work he breathed a sigh of relief. There was a steep descent with a useful rope (*I believe **Little Shit** leapt down without pause*) that one poshman decided to ignore and tumbled down. **Osmoses** dusted him off and sent him on his way (is he man enough to identify himself). The trail meandered through tricky messy bush, with **Pee Dub** grumbling as he went.

Eventually back to civilization through the Glenaeon Rudolf Steiner School, with **Little S** explaining that it was in a bush setting to minimise ariel bombardment, something to do with the Aryan origins.

**Goonshow** and **Kitty** got slowed by a tricky check as we left the school and headed up 17 million stairs to the runners walkers split with **Saddle Sore** officiating. Walkers write your own bit here or ask **Centrepont** for details. Runners and SCB's headed down to Sugarloaf bay with **Moishe** showing excellent speed for a hobbling jogger and **Cockup Camilla** following close behind. **Capt'n Bligh** convinced me to follow the full runners detour through Harold Reid reserve. **Druid** "I am not running tonight" charged up the stairs as we exited the reserve on Sugarloaf Crescent. From here, with an energetic **Hanoi Bill** calling on, we climbed 20 million stairs to exit at The Lee. After crossing Eastern Valley way, where **Plunger** decided that the charging car should have stopped because the light was red and was almost strawberry jam, we ran down Robert, past the bowling club and across Willoughby park. **Bennie** suffered mental fatigue and lost his way, detouring off trail at the close. Front runners returned exactly on the hour, the scribe on the other hand ended up chasing "**Cumming Anyway**" and so was too puffed to take any notice of the trail from here on in!! Comments from the masses follow.

*"A well thought out run providing a new experience for visiting Poshmen", "Who shat on the creek", "A great run" "I hope Jock uses some of that for the next rubber run (he sold the business - ed)", "I hope Grape had as much fun playing with himself", "Excellent for a mid city run"*

The on on was held at the Casa Bella with entertainment from a group that had everything but **Tic Toc** and **Calici**. Read the 9000 words below. Thank you to the NSWHHH
