

## Posh News 2214 – 30<sup>th</sup> November 2009

### The rain in Beacon Hill falls mainly on the Posh

#### **The Run**

So there we were, back at Red Hill reserve once more looking for a two forked beacon with **Tooth Fairy** and **Pee Dub**. The storms that had rattled Dee Why earlier had passed and it looked perfect weather for a night of Hashing. The pack took off energetically through what could of been a mine field or craters on the moon but was rumoured by **Polly** to be an BMX track.

Cleverly thought out routes (as **Pee Dubs'** always are) took the likes of **Jack the Ripper, Polish, Furkhand, and Khyber** on a tour of undulating highs and lows with scenic views and Original Aboriginal carvings. As tail enders including **Wanker, VI** and **Muff** got to the short walkers split, the trailmaster urged them on home, but only **Muff** took the sound advice in this group, following the ever wise **Centrepoin**. **XXXX** the renowned athlete decided it was the runners trail for him (more to follow).

**Boxkite** lead the long walkers on home as **Nautilus** discovered more artwork, which was missed by **Goonshow** who is revisiting the area with local guide Bronwyn Bishop next week. **Bennie** ploughed on home early followed by **Plunger** and **Lightning** to just miss the light rain which fell. **Jack** and your scribe were not so fortunate, getting caught out by strolling rather than galloping home. With the tables damp and the lines of squalls the pack headed on down to Miss Pam's wonderful grunge garage

#### **On On**

The excellent food provided by the hares and NYDogz (imported genuine U.S.A Hotdogs, Hickory smoked Spare Ribs and Apple Pie with a theme song) was enjoyed by the majority of dedicated Hashmen (not the damp squibs who headed home and not by **XXXX** who had all the piss washed out of him in the storm). We followed this ample meal that even kept the **Grape Ape** happy for a few minutes with a study the history of the Battle Of Two Forks told very seriously by none other than a very young looking **Chips Rafferty** (dressed as Harrison Ford). Apart from the hares the two female visitors, Jodi and Mary (you had to be there) got called up for down downs. It was rumoured that Manly was serving dinner but a great night was had by all who attended and the effort by the hares was much appreciated. The spirit of the hash could not be dampened by the perennial rain on Red Hill.
