### Kitty and His Litter at Lane Cove National Park

#### The Run

It was the Annual Hash Father and Son Night with the sons of **Chastity**, **Furkhand** and **Kitty Litter** all in attendance to receive religious and sexual education instruction but unfortunately nobody could remember anything of these two subjects and **Darwin Don** said a daughters night would be much more appropriate anyway.

In spite of conflicting venue information a large group of happy New Year hashmen gathered in Macquarie Park for this run under overcast skies. So after a trip around Fontenoy Park led by outstanding athletes **Scud** and **Yakkity**, the pack headed down to the pipeline which **Cinders** and **Plunger** were so keen to see they ignored the "On Back" calls. **Jungle**, **Tooth Fairy** and **Pheasant Plucker** were not fooled and found the correct trail, leading the rest of the pack on to weed jungle.

The track had everything valleys, gorges and even a wild river crossing on just a single fallen tree, which **Smiley** having experienced the wilds of Kokoda stumbled across. He led **Hanol Bill** and **Druid** over the raging torrent safely but very carefully.

**Grape Ape** finding the evening too low key decided to embrace the Trail Master quite romantically, but this was not the sexual education the young sons came for. Further down the trail **Centerpoint**, **Jack The Ripper** and **Lightning** competed in the LIMBO competition crawling under a huge 100 foot Redwood, or was it just a large Gum tree (more on Banksias and bluebottles later). As **Van Ordinaire** reminisced about running through the park with his mates, **Moishe** and **Lurch**, watching the bridges and roads being built during the Great Depression, the track meandered along the Lane Cove river.

**Captain Bligh**, who is now having lessons from **President Calici** on bush turkey nesting, and **Lost Patrol** hesitated at the walkers exit but being staunch athletes decided to follow the longer river trail. **Little Shit** and **Bennie** led the way down to the picnic grounds before heading back up the hill. The hare had cleverly found a short cut allowing an early exit back to Lane Cove Rd and across to Fontenoy once more.

Back at the bucket **Larry Adler** took his weekly phone call and **Mr Neat** told stories of buying Government vehicles with brand new tyres while **Menstrual Man** discussed next weeks awesome run, just over the hill.

The evening began with home made dips followed by home grown corn, fresh roasted potatoes and wild marinated spatchcock. A great family effort by the **Kitty Litter** ON ON
