

RUN 2230 CHASTITY AND CAPTAIN BLIGH .....PUTT PUTT AROUND TERRY HILLS

Monday night at the Paradise Golf Centre .....the car park was full and so were the buckets of balls because we were here to run our balls off.... not to hit little white ones.

The two young Hares **CAPTAIN BLIGH and CHASTITY** set a great run in familiar territory with a different theme....

Down the road they went and soon **LIGHTNING, SCOTSMAN and CINDERS** found the hole in the fence and on into the inviting bush..... they were soon followed by a motley group of wine experts and would be politicians including **BUNNY TRAPPER, KING ARTHUR and IRISH CONNECTION**, who has a special day in March named after him every year.

The sight of a wide straight trail caused **SUPERGLUE, WITCHS TIT and YOUR CHOICE**.... such a democratic name .....to run past the first check and on several hundred metres in the wrong direction. Passing through the glorious Bridal Trails a certain Hashman was heard to say, he would never marry again and many envious looks were noticed.

There were several substantial river crossings and **LAST CARD LIVINGSTONE LOUIS** managed these without even removing his running shoes ,,,such an adventurer...

**CAREFREE, SWAMPY and JACK THE RIPPER** were heard to be discussing their next swim in Morocco and felt eager to tackle the camels there and **DARWIN DON** was telling **FRENCHIE** about his big 87th birthday bash on Friday.

On reaching St Ives Showground several very old and decrepit homeless types were setting up camp and now we know where EX Hashmen spend their days.

The run home was quite easy until **JOCK, PAY\_LING and FURKHAND** nearly became target practise after being lost near the shooting club .....while **KITTY LITTER** struggled home in the darkness slowed down by the weight of his numerous medals.

Back at the bucket and dinner, it was a glorious night under the beautiful Oak Tree ... much nicer than Neutral Bay and with more attractive humour and maybe less desperates.

We were all surprised by the exotic Chinese Banquet and **LARRY ADLER** who had no phone calls and **HANOI BILL** enjoyed the meal and fresh fruit salad.....

**Grape** tried to make damper with some flour .....**SMILEY'S** son Christopher smiled even more than him .....**FURKHAND'S** son nearly kept up with his dad and **E SHIT** attempted to tell us about going down with Glenda .....**PEE DUB** practised his Four Wheel Driving for his big trip next week .....and the Hares **CHASTITY and CAPTAIN BLIGH** with the help of a great committee excelled themselves once more..under the stars.....ON ON
