RUN 2239 WITCH'S TIT.. WRAPPED UP AT NORTHBRIDGE

A silvery grey clear night at the Friday Night Clubhouse brought out fifty something Hashmen in the carpark. Most with a little local knowledge but always the unknown variation on a known theme.

The pack led by **TYRE FRUCK and LARRY ADLE**R took off in the predictable but wrong direction .....and eventually **PEE DUB** and world traveller **SCUD** finally led the group out of the wilderness and into the golf course where **HANOI BILL and NAUTILUS** found the track down to Tunks Park. There, after many Checks New Grandparents **YAKKITY and KHYBER** while discussing changing nappies led the way along the well worn creek.

Up through the bush we went and **GOANNA**, who only eats carrots did well without a torch which he believes only makes it more difficult.

Local Boy **SUPERGLUE** found the home trail much too early and **CINDERS, SALTPETER** and **LIGHTNING** after struggling with a very large Check, finally found the way home through the bush and back onto the road and more steps.

Dinner was a white table cloth event (what a committee) and we welcomed back **DARWIN** from his holiday at Potts Point.....and were very honoured to have the male half of the international Spanish swimming team **JACK, SWAMPEE and SUPER. TIC TOC** had to eat the ice cream with a fork and **CENTREPOINT** again had three servings...E SHIT will continue his sojourn next week ..while **GRAPE and GOONSHOW** still discuss what colour underpants to wear at Interhash.....

A great Lamb BBQ and run was organised by the Hares **WRAPPER and WITCH'S TIT** and a wonderful night was had by all.....
