

RUN 2240 - A LITTLE BIT OF INDIAN HOARSE AND SPUD

The wet winter weather lifted and the Hares hard work came to fruition.....
SPUD and HOARSE WHISPERER planned a good winter run around the picturesque Lake.

On reaching the Lake the so called experts all went the wrong way until LOST PATROL and YAKKITY found the correct trail.

PLUNGER, SUPER and CINDERS after finally being back on track then took off up the hill but this was not the way either until HANOI BILL and ILLUCIFER, who thought the walk was TOO short, all took the scenic trip home.....

After finally leaving the moonlit Lake LAST CARD LOUIS and LIGHTNING took us up the stairs to a spectacular view of the Northern Beaches and home to the Bucket on the beach.

Dinner was a cosy affair at the award winning North Indian Restaurant with our enthusiastic Host Omar..... the food was so good CHANGI and W C took some home to sell the next day. PEE DUD and JACK the RIPPER kept a close eye on all activities drinking unlimited soft drink and YOUR CHOICE was advised by TIC TOC to only buy a medium size Scarf unlike XXXX who had to buy a X large size Hat.

DARWIN has fully recovered from KNEEMONIA and E SHIT continues his Ten part Saga. JUNGLE JIM was giving advice on how to build a 100 story structure from LEGO and GRAPE APE had to leave urgently to pack his socks for KUCHING

A good venue and run in winter ...
