

RUN 2241 - W C AND THE HASH RETIREMENT RESORT

Stanhope Road Killara6.30 pm - 40 Hashmen - ready to see the sights of Killara streets and gardens, starting at the new potential Hash Resort. All permanent guests had been put to bed earlier as the sight of these athletes could bring on serious heart palpitations.....

MAJOR DISASTER surprised everyone and arrived with a friend... ,or maybe someone he met at St Ives shopping centre who happened to speak the same language. ...and SPUD was still talking about the great meal from the East India Company last week.

Off through the village we roamed and **HANOI and WRAPPER** mentioned they might return for a Croquet game latterafter meandering slowly the runners finally caught up to **JACK THE MARRIED RIPPER** and **PRESIDENT DE GAULE** ,who is now planning a walk across Russia and everyone led by NAUTILUS seemed attracted to the LOCAL scout hall ...

Finally **SALTPETER and LIGHTNING** led the Pack down to Swains Bush Gardens which **MAXIMUS MINIMUS** suggested would make a lovely place for a wedding.....

Some local knowledge from **YAKKITY, SUPERGLUE and SHEEP DIP** took the group around the Scenic streets and back to the resort where the fun began.

Having been given all the left overs there was superb amounts of home cooked food and Mr Neat was heard to actually say .. not mime.... it was the best Lamb Shanks ever..

A special visit by **NURSE RATSHIT** was very enlightening and everyone learnt so much about the state of elderly men ...and how woman still use candles and not just for waxing**DARWIN**, who is back swimming five kilometres a day was told he was far too young for an establishment such as this lots of singing new war songs and great home made apple crumble made for a GREAT night which **W C** organised extremely well and also a substantial discount will be made to any Hashmen wishing to move into this salubrious establishment ...
