

RUN 2242 - GLEBE GETS A DOSE OF THE HASH

Glebe has become a parking lot. For a 6:30 run you need to get there about 4:30 pm and sit around and wait for someone to leave.

Then you have to park under a street light and leave all the doors open. That's what Grape does, anyway.

About 50 souls from various Hashes turned up to run around a trail which had limited chalk.

I have to say there are some great houses in the area, and some streets are wide boulevards, others dunny lanes.

The usual running around in circles, with the checks numbered for some strange reason. Most people seemed to be on a social outing and were just walking and talking without taking any interest in where they were going.

Back at the circle the GM and RA called up various wayward individuals for crimes known only to themselves.

Mention was made of the run being a copy of the committee run set before Interhash in 1984. That must have been before there were streets and cars in Glebe.

The On2 was at the Off Broadway Hotel, good steaks and beef pies being the main fare. Waygo beef hamburgers (?) were also on offer.

A few beers/red wines were in order, we told each other the usual lies and the crew dissolved into the night.

The run scored 7, the on2 a 6.
